Hydraulic Receiving Hopper Tilt for Easy Clean Out

Pump manifold and pump tubes simply clamp together

Bucket dumps sand and gypsum into the hydraulic spiral mixer

Features

- 4" Hydraulic Ball Seat Pump with 1000 PSI Pump Pressure Capability
- 70 HP Kubota Water Cooled Diesel Engine
- 12 cu. ft. Hydraulic Spiral Mixer with Hydraulic Dump
- 26 cu. ft. Receiving Hopper with Hydraulic Agitator
- Dual Axle Trailer with (2) Braking Axles
- Heavy Duty Tubular Frame
- Lowest cost wear parts in the industry
- 150 ga. Water Tank with 2" Flow Meter
- Heavy Duty Manual Leveling Jacks (4)

Options

- 2000 PSI Hydraulic Pressure Washer
- Spare Tire
- Electric Power
- Skid Mount
- Custom Paint

Specifications

HBS-1500

Length	234"
Length (w/ Receiving Hopper)	92"
Width	92"
Height (Water Tank)	93"
Height (Mixer Dump Position)	95"
Mixer Charging Height	57"
Weight	8350 lbs.
Output	0-15 cu. yph.
Mixer Capacity	12 cu. ft.
Receiving Hopper Capacity	26 cu. ft.
Pump Pressure	1,000 PSI
